

## OXYMORON(S)

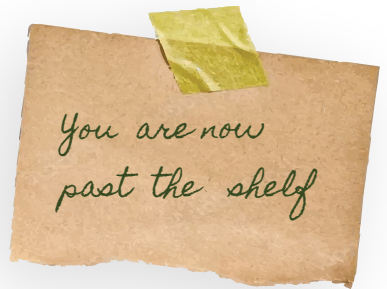

noun /Ox-ee-more-ons/

Not as serious as it sounds.

Not as silly as it looks.

A figure of speech where two opposing ideas collide... and somehow click.

From the Greek: oxys (sharp) + moros (foolish)

# Welcome to the *Anti-Menu*

Oxy's a bit of a rebel, so no full meals here.  
Just bites that pair well with noisy chit-chats...  
or comfortable silences. Both are welcome.

We serve snacks that talk back.  
Drinks that don't try too hard.  
And a room that doesn't beg to be liked.  
To get it right, we'll take the time we need.  
thanks for waiting.

Grab a huggie — whether you're having a  
bad day or just feeling squishy.  
Talk to strangers. Pull up a chair if you  
came looking for something real.

This is a space that doesn't explain itself.  
Welcome, you Oxymoron.

## CLEARLY MISUNDERSTOOD

In our take on picante, Patron Tequila meets beetroot, chilli, and miso in a mix that's as bold as it is contradictory.

*Looks red,  
hits like heat.*

# Oxy's Contradictions

## SERIOUSLY PLAYFUL

When Dewars Japanese whisky wears a tropical grin — pineapple, coconut milk, curry leaf and salted coconut air.

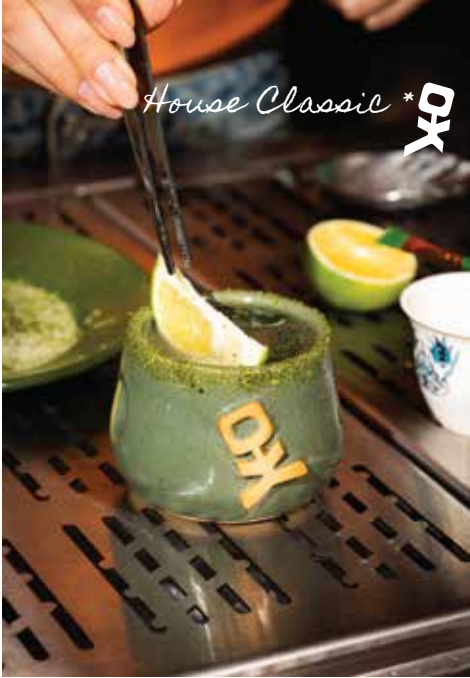

*Come to play,  
Depth is no joke.* 🦴
